Below is a suggested template for CO_2 reporting.

Numerical simulations	
Total Kernel Hours [h]	8260
Thermal Design Power Per Kernel [W]	5.75
Total Energy Consumption Simulations [kWh]	82
Average Emission Of CO_2 In Germany [kg/kWh]	0.56
Total CO_2-Emission For Numerical Simulations [kg]	45
Were The Emissions Offset?	**Yes**
Transport	
Total CO_2-Emission For Transport [kg]	1050
Were The Emissions Offset?	**Yes**
Total CO_2-Emission [kg]	1095

Table 1: Example of a CO_2-table that can be included towards the end of a scientific publication.
